Customer Reviews

I purchased this as a basic introduction to instruments for my homeschooled first grader. He enjoys playing, and asks often enough that the names are being reinforced. We also realized that the size of the set makes it great for playing memory (leaving out the fiddlesticks, of course!).I would have gladly exchanged less robust packaging for sturdier cards, though. I can't imagine they'll be looking great with another few months of use.

I actually love the game, but I'm rating it a 4 because after just a few uses, the cards are already showing wear. The cards are just not sturdy enough to withstand use in a public school music program. The cards did help students practice musical instrument families which was my purpose for buying them.

Purchased for classroom use. Students love the game, but the cards are flimsy and tear easily. Wish they were the quality of a regular deck of cards.

I don't like the fact that the pictures of the instruments are fragmented.

My music classes love this game.

Good for a variety of ages, can be used as a game or for review. Great classroom resource for a great price!

Great game to use as a reward in music class or to reinforce musical instruments. My 1st graders can kind of play it, but most effective 3rd grade and above.
