Kalliope Karella culls the best of the best from inspired brides all over the world. --Weddingbells

My daughter was happy with the book ...

This is a beautiful book although I wouldn't say it's a guide as it proposes. It has nice tips about how the wonderful - and billionaires - weddings were done. The where, when, who... you have it all there

in photos and small texts. But there are no phone numbers and no address to suppliers or whatever. Even so, I rated it 5 stars because it's beautifully done and exactly what I was looking for.

great peak into another world

I was appalled to read the one star review on this book. It made me share my opinion about it. It's a beauty and it shows what the author proposes - well, maybe the word 'guide' is a bit overrated but... There are beautiful photos, and nice tips for those who understand what they are reading. Ideas for those who can do a ultimate wedding.
