My son received this hand-puppet board book as a gift for his first birthday. It is absolutely adorable. Each puppet is different and reflects the animals in the "Old MacDonald" song. The material is sturdy and the puppets are nicely stitched. My hand and fingers fit comfortably with room to spare for those who have larger hands. My son has enjoyed watching me move the puppets around and going through the book while singing the song. My only complaint about the product is that the book

is rather thin. I thought it was going to be a fabric book. I do not leave my son's board books out for him to go through whenever he wants because he chews pieces off and chokes on them. I thought that with this being mostly fabric and the book having Velcro that I would be able to allow him to play with it whenever. However, the book is so flimsy that it could probably easily be torn off of the fabric and get into my son's mouth. So until he's a little older and no longer trying to eat books, I'll definitely need to supervise him with this toy.

This book is adorable. It has all the animals that my daughter loves to run around the house making noises for - cow/pig/duck/cat/dog. My only complaint is buyer error. I saw the age recommendation on the book but thought it was too cute not to grab. I purchased this for her for Christmas this year she is 2.5 years old and really into books, animals and finger puppets and thought this would be the perfect combination. She will keep interest when I read it to her and play along but she would much rather use the other finger puppets we own (they are not attached to books). I wish I had seen this 1-1.5 years ago it would have been perfect!

My 6 month old loves the animals, but the book is pointless, and the fabric is like the stuff they make cheap carnival prizes out of. It gets super linty, but the thing can't be washed because the book is attached.

Our package arrived today and we are really looking forward to it, however, we were a bit disappointed in the quality of this book. For example the stitching of the dog's nose is only on the right side of his face. The corners of the book stuck together so when we turned the pages we removed some of each page leaving white dots on the corners. I agree with another reviewer, you might be better off buying finger puppets and singing the song your self.

Awesome, saw it at Facebook a girl was singing it to her dad as he was video tape her and posted it on Facebook.

I found the book attached lacking and unnecessary. I would just recommend buying actual finger or hand puppets you could do more. I should say that my child loves the finger puppets though.

I have now purchased three of these books: one for my granddaughter, and two to give to friends for their little ones. My granddaughter has loved this book with the finger puppets since she was about

6 months old. She is 14 months old now and continues to bring this to me to sing the Old MacDonald song to her (she's not all that interested in the cardboard book) while I wiggle the fingers and make the animal sounds. She will pick it up and mimic the singing -- so cute!

My kids like the puppet fingers but I didn't expect the book just to be a mix of partial verses from the Old MacDonald song. The only entertainment is what I do with my fingers, not anything that's written on the actual pages.
