Customer Reviews

I can't believe allows this kind of mess to be posted in their digital collection. Not only was this book only three pages long on a MOBILE PHONE but they actually charge for it. There was absolutely zero advice about making insurance buying decisions. This is purely frustrating. This book or article should have never been posted. I can't remember the last time I was mad about wasting a dollar. This makes me want to never buy from ebooks again. There must not be an approval/review process at all.
