The Satanic Bible The New Testament Book One

Synopsis

Picking up where Church of Satan founder and author of "The Satanic Bible" Anton Lavey left off, Ivan D'Amico delves further into the dark, murderous, and vile history of the religions of the world. As a society, we are more and more enlightened every day as to the true nature of our being, the origin of life, and the creation of the universe. THE SATANIC BIBLE- THE NEW TESTAMENT explores these scientific explanations and uses them as evidence that the religions of the world are based on myths and lies, yet religion is still used as a reason to torture and kill millions of people, as it always has been. Using examples from history, the news, and personal experience, Ivan D'Amico begins to dissect the reasons we have needed religion in the past, as well as presenting evidence that it is doing our society more harm than good. The ones who have been put in charge of our spiritual well being have proven time and time again to be as corrupt, and in many cases more so, than others in positions of authority, and it is time that authority is taken away from them and given back to the people. The enormous financial resources and power that have been given to the gurus, prophets, temples, churches, and mosques of the world has been squandered and used for personal gain by the leaders of those religions, and THE SATANIC BIBLE THE NEW TESTAMENT not only accuses those who have grown wealthy at the suffering of others, but provides answers and strategies for how to deal with the spirituality of this modern age. Contents are;Chapter One: INTRODUCTIONChapter Two: THE BOOK OF RESEARCHChapter Three: THE BOOK OF TEMPTATIONChapter Four: THE NATURE OF EVILChapter Five: THE BOOK OF LEGENDChapter Six: THE BOOK OF POSSIBILITIESChapter Seven: THE DEFINITION OF SATANChapter Eight: A CHRISTIAN TRADITIONChapter Nine: THE DAY CRIME WENT PUBLICChapter Ten: THE BOOK OF ADORATIONChapter Eleven: THE BOOK OF ATROCITIESChapter Twelve: A TALE OF TWO DEMONSChapter Thirteen: THE SACRAMENT OF HEAVY METALChapter Fourteen: THE FUTURE MODERN SATANISTChapter Fifteen: THE BOOK OF THE AFTERLIFEChapter Sixteen: THE UNDESERVED SHAME OF MASTURBATIONChapter Seventeen: THE DOCTRINE OF SATANIC LAWThe Whole book is almost Four hundred pages long, and the book two of THE SATANIC BIBLE, THE NEW TESTAMENT is in the works, though it will probably take a few years to complete. In the meantime, the author is working on other titles like:CONVERSATIONS WITH SATAN THE PRINCE OF SKID ROW and MEDIA DARLINGS: HOW TO GET FAMOUS FOR DOING NOTHING.BE SURE TO CHECK OUT THE NEWEST RELEASE FROM FATAL DATA PUBLISHING,"OVERCOMING INSECURITY, HOW TO MEET THE RIGHT WOMAN, AND BUILDING SUCCESSFUL RELATIONSHIPS" available NOW at .com, and the paperback version will be available within a few weeks of 03/15/2012. THANKS FOR TUNING IN, I

HOP,E YOU ENJOY THE BOOK!!!

Customer Reviews

I did enjoy reading this book for the most part, and the authors content and writing are both good in the sense that it wasn't filled with errors or misspellings. Even the content for the most part is pretty damn good, and the man does know what he is talking about. The one gripe I have, and this gripe IS what made me deduct a star is that the author rambles quite a bit. Taking asides on top of it to say, "your probably wondering what this has to do with Satanism...will get to that." After reading this more then half a dozen times within the first 100 pages, got to be pretty tedious, and even though in these ramblings the author has some very good points. Its get rather long winded. Now don't get me wrong, I don't mind a thick book, there are far to many "satanic" writings out there that are good, but are way to brief. This tome certainly isn't brief. I also would recommend that you read it and be the judge for yourself. In my opinion, the book could be polished down a bit more, some of the topics could be tightened up, and many of the asides can be taken out. I think this would shave probably a good fifty pages off the book at least, and make it much more precise reading. Overall, would I read it again, Not cover to cover I wouldn't, But there are a few parts that I can see myself jumping

around in the book to possibly read in the future.

There are certain books that you buy just because the cover or title looks good, you hope it has more than that to offer, and they generally succeed about 10% of the time in delivering enough thought provoking rhetoric to last through lunch. The others sit on my shelf after a few brief moments with me and simply radiate with the adoration they are given for their clever artwork or striking title. This started out as such a book, and I had very little hope for it having substance, other than perhaps a few historical witch trials or some beautifully reproduced demonic artwork. Not being a fan of fiction, the reviews and description said it had many non fictional chapters on; atrocities committed by the church (murders by priests, child abduction/rape, extortion, etc), a chapter with what many believe are mythological characters (God and Satan) in a short story about the creation of the world, a chapter explaining why heavy metal and music in general are essential for our well being as well as that of the community, a chapter on why law and punishment should be COMPLETELY rebuilt from the ground up, but the author also provides answers, and they are very well thought out (albeit a bit naive, but it makes more sense than the current method of teaching convicts how to be career criminals in a place where you find all the connections you need for a lifetime of crime, unless that is your intention for your civilization, and it probably is for this one. TSBTNT is written to impeccable standards of English (spelling, grammar, AND syntax), which made it much easier to believe in what the author was presenting to me across time and space. Nothing makes an argument fall apart more quickly than poor spelling or other simple errors, but there were few enough to introduce me to a new way of thinking that absolves me from guilt while maintaining a hierachal and accountable system of social structure, which he (the author) promised to get into with more detail later on. In conclusion, you can read this book picking a chapter that interests you the most and keep going like that, but you can really open up to any page and find an interesting story or commentary. Damico is either totally out of his mind or a visionary for a better system of Government, but you CAN'T call his book uninteresting. It has everything from tongue in cheek humor to French revolutionary poetry, true stories about Satanic heroes and Christian priestly villains, even a recipe for human infant from a 1930's Russian underground periodical (purely for the purpose of pointing out that any civilization, OUR civilization, is only a few meals away from cannibalism and torch wielding townsfolk, but it's not trying to be shocking for the sake of shock. Every object or situation has a purpose in the book, and his stories and commentary, what we would normally think of as fables or even simpler, opinions, have matured into well written commentaries on the effects of spiritual

organizations on populations over specific periods of time. He even cites examples of Russian Christian castration cults, Â¢Â ªtortureÂ¢Â • and Â¢Â ªexorcismÂ¢Â • churches, and many examples of what I can only call Â¢Â ªgod approved rape, torture, murder, even necrophiliaÂ¢Â •. Last thing, I hesitated buying it due to a few scathing reviews, but I noticed that all of the criticism came from people with no purchase confirmation, meaning they hadnÂ¢Â ªt read the book (actually making me want it more!). All of the reviews from people who HAD purchase confirmations LOVED it, so that was the last time I listen to opinions of people I donÂ¢Â ªt know.

I have waited a long time for someone to do exactly what Ivan D'Amico has done and that is write an update to what could possibly be the most influential book of the 20th century. It is well researched, well written and more importantly, a book that if Anton were alive today, he would approve. A must read for anyone interested in this school of thought.

There are no Demonic incantations contained in this book. The author says he cannot give you the knowledge of how to conjure up a demon, or to send it back, of which he furthur says "YOU WILL WANT TO KNOW A LOT MORE THAN HOW TO GET ONE TO SHOW UP." (Capital letters are the author's). Instead, he takes to task the ancient doctrinal philosophies of religion and shows how religious leaders have used their position to gain power, riches, and influence for themselves and their Institutions and to deceive, oppress, and control the common people. The Bible and Catholic Church are examined primarily because the author grew up in a Catholic enviornment, but he belives the same analysis and conclusions can apply to followers of the Koran, Book of Mormon, etc. I found this book to be an extremely interesting read, and highly recommend it, especially to anyone who has ever had a bit of intellectual skepticism regarding the Draconian authoritarian stance and actions of major religions over the centuries, relative to their purported mission of saving souls and guiding humanity along a right path. For those not skeptical of the true motives of "religions", you may feel at least slightly differently following a perusal of this work. The book is obviously well researched, and is written in a straightforward, sometimes very blunt conversational manner. It is the author's position that religious tomes written long ago do not actually explain or prove anything in a literal sense, but instead give a story of an aspect of life for which mankind does not or did not at that time have an answer. He takes the "Seven Deadly Sins" of Catholicism, and argues that with a slightly different interpretation than the Church uses they appear as normal, healthy human desires which are necessary for the propagation and advancement of humanity. For example, without LUST there would be no sexual desire, and humans would likely not reproduce to

populate the earth to any great extent. By making these natural desires and thoughts "sins", a sense of guilt is instilled in the believer which can only be removed through the Church's Sacrament of Reconciliation. D'Amico also includes his own version of a more relevant list of sins people commit against humanity. In other chapters he examines the Inquisition and the Crusades (called "Holy Wars" by Christians) and the real motivations behind these events, which were the cause of suffering for untold numbers of people in the Middle Ages. The recently brought to light virtual tidal wave of child molestation offenses by Catholic clergy is also discussed and reviewed. Additionally, D'Amico presents interesting, highly entertaining (and possible?) alternatives for the story of the "Garden of Eden", and the creation of the planet Earth. The latter is portrayed as a collaborative school-for-gods project with the collaborators being Jehovah and Satan. He also injects anecdotes from his own personal life and journey of discovery. I give this book a strong "buy" recommendation!

Good read pretty entertaining
