good read! honestly i was amazed. this book does have zombies in it but its more of a metaphore im not big on hip hop i used to be but this book makes you think. it touches on being a original person in the music industry, racism, labels and even uses the zombies as a metaphore to show that people are the walking dead because they dont open their minds to "real " music.lots of swaring and vulgar terms at first it does throw you off but you get used to it and once you get used to it you get sucked in the art looks like a hip hop music video its smooth and nice not too goofy but its cool

kinda retro. read it and give it a chance
