# CHSPE Exam Study Guide: CHSPE Practice Test Questions And Review For The California High School Proficiency Exam

## Synopsis

Think all CHSPE study guides are the same? Think again! When it comes to the CHSPE (California High School Proficiency Exam), you want to be prepared. With easy to understand lessons and over 110 practice test questions designed to maximize your score (plus essay sample questions), you'll be ready. You don't want to waste time - and money! - having to study all over again because you didn't get the score you needed. You want to accelerate your education, not miss opportunities for starting your future career! Every year, thousands of people think that they are ready for the CHSPE, but realize too late when they get their score back that they were not ready at all. They weren't incapable, and they certainly did their best, but they simply weren't studying the right way. There are a variety of methods to prepare for the CHSPE....and they get a variety of results. Trivium Test Preps Secrets to Outsmart the CHSPE provides the information, secrets, and confidence needed to get you the score you need - the first time around. Losing points on the CHSPE exam can cost you precious time, money, and effort that you shouldn't have to spend. What is in the book? In our CHSPE study guide, you get the most comprehensive review of all tested concepts. The subjects are easy to understand, and have fully-explained example questions to ensure that you master the material. Best of all, we show you how this information will be applied on the real exam; CHSPE practice questions are included so that you can know, without a doubt, that you are prepared. Our study guide is streamlined and concept-driven - not filled with excess junk, silly attempts at humor, or confusing filler - so you get better results through more effective study time. Why spend days or even weeks reading through meaningless junk, trying to sort out the helpful information from the fluff? We give you everything you need to know in a concise, comprehensive, and effective package. Trivium Test Prep offers:   
• CHSPE Test Prep book that brings the heat  
• CHSPE Exam study guide that is new standard CHSPE Exam prep that helps you dominate the competition

## Customer Reviews

I had bought this study guide book about a month ago. There are 5 chapters in the book itself, each touching on the topics going to be on the CHSPE exam. I believe the best part of this book is mostly the language arts/reading comprehension chapters, as the actual mathematics section could have improvements like going further in depth while providing more explanations. However, those language chapters aren't as thorough as another book is (that I will be linking soon in my review). As some other reviews have stated, yes there ARE some grammatical/mathematical errors in the book. For the price, I would say there are too many errors for it to be "acceptable". For what the cover of the book says, there actually is not an official "full practice test". Yes, there are practice questions, however there is not a whole "test" that mirrors an example of the CHSPE exam. It is a smaller book that does not go as in depth as I expected, so I would not say it is worth the \$30 it is priced at. If you are wanting to get a more "in-depth" book, I had recently purchased [Barron's CHSPE: California High School Proficiency Exam](#) since I finished this one. Looking through it, I believe it is muuuch more thorough than this study guide, and for a cheaper price! However, that is just at first glance. Plus, in the Barron's book there are 3 full practice tests, so you can see where you're at and if you are improving :). You can decide what you will buy from here, but this is just my outlook on this item. Good luck to all who take the CHSPE exam! ( I will be taking the exam in March)

This book is very helpful. There are practice problems after every huge section on grammar and vocab, etc. The math in this book is SIGNIFICANTLY more difficult than the math in the Barron's chspe book. There are tons of practice math problems, some are really tricky. I'm not sure if the chspe problems will relate but I will update the review after I take it. One of the problems I have with this book is that the answers to the problems are given but not EXPLAINED. Also there is no full practice test, just practice problems. The Barron's book however does come with actual practice

tests that have the same amount of problems as the real chspe would and practice essay prompts. This book has been very helpful so far! Update: This book definitely exaggerates the math portion. The CHSPE's questions aren't nearly as tricky or difficult, this math will probably significant overprepare you which isn't a necessarily a bad thing.

We had to go through and actually GOOGLE the correct answers. The book contains many errors. Not good. Better book to buy is [https://www..com/dp/1609713486/ref=cm\\_cr\\_ryp\\_prd\\_ttl\\_sol\\_15](https://www..com/dp/1609713486/ref=cm_cr_ryp_prd_ttl_sol_15)Waste of money... (or genius if the intent was to have people Google the real answers)

I bought this study guide (through ), because it was the highest rated Chspe study guide. So far, it's been a good purchases. I'll be taking the test this may, but the study guide has put me more at ease (I don't sweat when I hold a pencil anymore!). The only thing I would've wanted more on the test, would be a few more questions (since the CHSPE has about 180ish). Other than that, I've been satisfied with my purchase.

Great review study guide. This book helped my son pass the CHSPE.

So many typos and wrong answers. You would think paying as much as you are they would at least proof read it.

I had this book one day and have already encountered a number of problems with it. The emblem on the cover states that the book includes a full practice test. There is no complete practice test in this book! Perhaps all the questions from the different sections/chapters of the book comprise the same number of questions that are in a full practice test, However, there is not a completely separate test that could be taken that would provide the user with the experience of taking the actual test. This advertising is misleading. In addition, the answers to some of the questions are mislabeled with the incorrect lettered response. These questions typically have the correct content for the answer in the response, but the incorrect letter response is confusing. In some cases (vocabulary section) the entire sections are incorrectly numbered. This should have been caught in the proofreading or editing of this book. For a premium price of \$29.99, I expect honest delivery of what's advertised and freedom from errors that confuse any user of this book. The quality and honesty of this product calls into question the accuracy of the content. How did the other reviewers

of this product miss these factors in their glowing, 5-star reviews? Update after a week- In addition to being mislabeled, some of the answers to practice math problems are actually incorrect.

Great book. I think this is the best study guide for this test. Now if only my son will apply himself..!
