As the title states, this is a great book for Paleo beginners! It's difficult to leave behind processed foods, grains, starches, and refined sugars and base your diet on lean meats, nuts, and plant fats, and Don's book shows he understands how hard it can be to make these changes. He starts with general information about the Paleo diet, but then focuses on preparing the reader's mind, body, and physical environment in order to follow through and make a successful shift into the Paleo diet lifestyle. He even provides a whole chapter that gives you a daily task to complete the week before starting the paleo diet, so that the transition will be as easy as possible. Who wants to lose weight? Almost all of us, right? Guys, us too, right? Look around, most diets are geared for gals, aren't they? Well, here is one that might fit some of us well. Read about the Paleo Diet by Don Orwell .

Very informational for my gf and I who are starting this diet. Great recipes and suggestions. If you're not a meat eater, forget it but if you love a good steak and lots of healthy paleo and other goodies this is the diet for you. Whether it's to lose weight or just stay healthy, it's an awesome book.
