Hawaii [Laminated] (National Geographic Reference Map)

Synopsis

One of National Geographic's most visually stunning maps, the Hawai'i Map shows all eight of the major islands and includes an inset of the entire chain of reefs stretching nearly 3,000 miles across the central Pacific. In addition to showing all of the major land features, the map also shows the Hawaiian Ridge that runs under the islands, providing a wonderful perspective on how they were formed. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive.

Map Scale = 1:773,000 Sheet Size = 34.75" x 22.75"

Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This map has great detail and information about the land and surrounding waters.

Love it

Of course National Geographic does it right. Very nice Island picture. Going on an Hawaiian Island cruise. Love the undersea detail.

Love the map so does all are friends.
