Smart But Scattered Teens: The "Executive Skills" Program For Helping Teens Reach Their Potential

Synopsis

"I told you, I'll do it later." "I forgot to turn in the stupid application." "Could you drive me to school? I missed the bus again." "I can't walk the dog--I have too much homework!" If you're the parent of a "smart but scattered" teen, trying to help him or her grow into a self-sufficient, responsible adult may feel like a never-ending battle. Now you have an alternative to micromanaging, cajoling, or ineffective punishments. This positive guide provides a science-based program for promoting teens' independence by building their executive skills--the fundamental brain-based abilities needed to get organized, stay focused, and control impulses and emotions. Executive skills experts Drs. Richard Guare and Peg Dawson are joined by Colin Guare, a young adult who has successfully faced these issues himself. Learn step-by-step strategies to help your teen live up to his or her potential now and in the future--while making your relationship stronger. Helpful worksheets and forms can be downloaded and printed in a convenient 8 1/2" x 11" size. Customer Reviews

"An absolute 'must read' for parents. Many detailed examples show you exactly how to teach your

teenager the skills needed for success in school and beyond. The clever strategies for getting around teens' creative resistance to making changes are particularly helpful. I will recommend this gem of a book to all of the parents and adolescents I treat."--Arthur L. Robin, PhD, coauthor of *Your Defiant Teen*"Executive skills are critical to success in life, but may be delayed in some teens and young adults--and parents are often at a loss for how to help. *Smart but Scattered Teens* is just what parents need. This is a highly useful guide for improving teens' executive skills and motivating them to use the skills they already have."--Patricia O. Quinn, MD, coauthor of *Ready for Take-Off: Preparing Your Teen with ADHD or LD for College*"Does your teen's behavior have you tearing out your hair in frustration? Quit nagging and use this wonderfully insightful and practical book to coach your 'smart but scattered' teen for personal, educational, and social success."--William Pfohl, PsyD, past president, International School Psychology Association"I was hooked from the first chapter! This book has opened my eyes to ways to foster my son's strengths, not just criticize his weaknesses. With all the issues we battle daily, it's easy to forget the power of the positive. I'm thrilled to have a specific plan of action for targeting the skills my son needs to do better in school and become more focused and responsible."--Kim L."The book's 'executive skills' are the critical tools needed to solve problems, manage time, and perform tasks. As many parents know, tweens and teens often lack these abilities....A very helpful addition to parenting shelves." (Library Journal 2013-02-14)

I have a kid who's gifted & in gifted classes. Understands high level concepts, but can't figure out how to organize his locker or manage to turn in his homework - even though he's completed it. It's been bandied about maybe he has autism or ADD, but those didn't fit. This book describes him to a T. Not having the frontal lobe of his brain maturing at the same rate as his peers is a simple, logical explanation & the ensuing ways to deal are enlightening & helpful. This book was a god-send. It was suggested by his gifted teacher after she spent time with him.

A lot of great information but, gets a bit mind boggling and stressful if you're going to follow it word for word.

Very interesting book. Haven't read the entire book hoping it will have more detailed info on how to help. The beginning tries to identify which type of executive functioning they might fit into. I'll repost again. Which I ended up skipping some of the it. It's already what I know now help to work on it

Perhaps I'm too scattered to have completed reading and utilizing the material. LOL. However, the book did give me some insight to why my teens are the way they are as well as myself. If you are a regimented parent, it would probably work for you.

Great ideas to get everyone started. Endorsed by our family counselor
