Customer Reviews

This is an excellent ebook for kids! As a teacher of elementary students, I would love to incorporate this ebook into a small group activity where I present a main idea or topic to the whole class and then they break up in small groups and discover more material on their own. My mind was continuously racing as I read through this book thinking of different projects I could make on this topic. It is the perfect age group to let them use a kindle to explore and what a better way to do so than with this ebook! I will totally let other teachers know of this opportunity and will keep this seller in mind with other ebooks available. I received this product free for reviewing purposes, however my opinions are all my own.

We are a family of readers. We love to read. We have three children (Boy - age 15, Girl ÂfÂ¢Â ª age 10 and Girl - age 5) While we traditionally like to read bound books together as a family we have purchased a Kindle for our ÂfÂ¢Â ªfamily libraryÂfÂ¢Â ª. We give each child an allotted amount of money to spend per month for new books for themselves. We often try to select childrenÂfÂ¢Â ªs e-books that appeal to our younger daughter but to appeal to the older children to read aloud to her. This helps with their reading retention. The older children are more likely to choose a good chapter book. We also try to choose nonfiction books to help educate ourselves more. But there is always room for fiction in our lives ÂfÂ ªÂ•Â We like to write reviews on the books we purchase to help other families who maybe also looking to start or continue building their ÂfÂ¢Â ªfamily librariesÂfÂ¢Â ª. Please see our review below for our review of this e-book version of Weather We Like It or Not!: Cool Games to Play on A Cloudy DayPRO: We liked the photos.AGE APPROPRIATE: This was a little ÂfÂ¢Â ªyoungÂfÂ¢Â ª for our kids. This e-book to our family and friends that have young children.FORMATTING: We thought the formatting of this E-Book made this book easy to follow along with.DOWNLOADING: No issue with the download to our Kindle..*** This review is based on my familyÂfÂ¢Â ªÂ¢Â ª fair, honest, and unbiased review of this product, and I only buy products that my family and I will actually use.
