# Celtic Devotional: Daily Prayers And Blessings

## Synopsis

Mirroring the ancient formulaic prayers to the elements found in the Celtic tradition, along with the wondrous invocations and declarations of the bards of the Scottish, Irish and Welsh traditions, Celtic Devotional provides a mystical doorway through which the modern person can re-invest their life with meaning within the twilight times of dusk and dawn. Celtic spirituality emphasizes the appreciation of nature and all forms of life -- a popular and universally appealing philosophy that, along with other related pagan traditions, is having a renaissance. Beautifully illustrated and designed, this book will appeal to readers searching for ways to practice spirituality, offering blessings, prayers and devotions.

Caitlin Matthews is the author of 24 books, including the Celtic Book of Days and Singing the Soul Back Home. She is a respected authority on the Celtic spiritual tradition, which she teaches worldwide. She has an ecumenical ministry as a midwife of souls to all people of goodwill, working extensively among those who are seeking a viable means of spiritual expression. She lives in Oxford with her husband and son where she has a shamanic and ritual practice.

My favorite book in the world. I carry it with me everywhere. This is a new copy, and my original copy was lost during my move. It has the most beautiful prayers, devotions, rituals and the like for everything under the sun. It's just perfect, and it's Caitlin Matthews, so right there is enough.

Exquisite book

first edition: Daily meditations that are spiritual but far from traditional Christian...I love it. I just ordered the 2004 edition hoping that because the dimensions are a bit larger and it has 16 more pages that the typeset is larger. I would hate to have to give up this treasurer because of my aging eyesight.

This book has totally met my expectations and put me in touch with my Celtic side. The devotions are well written, very thoughtful, and very useful in today's world. Nothing preachy preachy, just good, honest, reflections on behavior and thoughts. I even started using it when I go into the local prison for my bi-weekly class. It has started some really thoughtful conversations with the men I teach. It has been a very helpful tool.

I really love this book I start my day with it and a cup of tea.

Not for the person who is looking for something specific to a particular religion. It will help establish a meditative practice with a Celtic flavor. It will enhance spiritual practice, its not meant to be the basis of it. I quite enjoy using it.

This guide is nice for an everyday devotional. It is divided by morning and evening sessions. If you get tired of the lunar and solar meditations you have an optional section for special events. You can also combine this with other meditations. The seller sent this quickly and it arrived in excellent condition.

I have always loved using a devotional. When I discovered my Pagan Roots, I was kind of lost without a devotional. But here is one that covers my heart's desire. This little book is a blessing all it's own! It has restored my belief in the well being of our universe and it gives my soul what it needs on a daily basis. Thank you.
