The Exceptionally, Extraordinarily Ordinary First Day Of School

Synopsis

On the first day back to school from summer vacation, John is the new kid. When the librarian asks him if the school is any different from his last one, he begins a wildly imaginative story about what it was like. What follows are hilarious scenariosâhis old school bus was a safari jeep pulled by wild creatures, the school was a castle, and the lunch menu included worms! His imagination wins him the attention and awe of his librarian and peers, setting the tone for a compelling story about conquering the fears of being a new kid, as well as the first-day jitters that many children experience. Â Albert Lorenzâs over-the-top illustrations, reminiscent of the work of MAD magazineâs early artists, bring the story to life. Speech bubbles and side panels make reference to and define objects in the art (in the most humorous and irreverent way).

Gr 2-4â "John, the new kid in school, is looking for an unexceptional environment because his old one was just the opposite. â "My old school was really, really old. And kind of a hangout for ravens. It could be sorta messy.â • John's definitions of â "Extraordinary factsâ • related to the various scenarios he describes are listed in glossary panels on the right-hand edges of the fantastical spreads. The pictures were created with watercolor, color pencil, pen-and-ink, and airbrush.

Humanlike animalsââAnthropomorphismââThe practice of thinking that your pet cat (or rat or rhino) has human qualitiesââappear in the detailed visual feasts, which beg for inspection. Eerie surprises exist in the illustrations, and the glossary includes bathroom humor, outrageous comments on teachers, dark humor, and slang. The book's format adds to its appeal with varying fonts for the artwork, a consistent font for the story, and speech bubbles. An unusual picture book, for most libraries.ââMary Elam, Learning Media Services Plano ISD, TXââ (c) Copyright 2010. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. I bought this hoping it would be a good read-aloud book for my 4th and 5th grade class. Although the pictures are great, much of the story is told through dialogue, and it's hard to see the very, very detailed illustrations from any distance. It didn't work out as I'd planned to use it, but the kids still enjoy looking at it individually.

Love the layout of this book! It has lots of fun content and each set of pages has definitions of words, etc. on the side of the page to give more background for children about concepts introduced. I can't wait for school to start so I can use this book!

Too wordy for a "read aloud".

I bought this book for incoming first graders. It was much too wordy to hold their attention and there was just too much happening on each page. Reading all of the speech bubbles would have taken me all day! The illustrations were a little disappointing as well. I'll be passing this along to a teacher of higher grades!

Great!

It said that this book was good for children 4 to 8 years old so I purchased it for my class of 4 and 5 year olds. It is way over their heads in regard to what they refer to and tone and not appropriate for

this age group.

Little long to read but great ideas

Super strange book. Not for little kids.
