## Customer Reviews

Impressive collection full of info for anyone covering Nirvana on bass.

A good collection of Nirvana's songs; nothing important is missing. A standard bass tablature publication, with the complete bass part printed in both standard notation and tablature (tabs) for four-string bass. Guitar chord names are also provided, which can occasionally provide a little extra insight into the harmonies. For the most part, Nirvana's basslines are not very difficult or challenging, which makes them a good choice for beginning or intermediate bass players.

To start things off, I am a huge Nirvana fan and bassist. This book has almost every one of the best and favorite nirvana songs. The book contains music notation and tablature for each song. I believe "Drain You" is the only song that stood out to be missing. The book was not in very good condition, there were stickers and pencil notes on some pages. In general a great buy. Awesome tab book

Good if you want to learn nirvana songs.

I love playing nirvana songs on the bass or lead guitar. I'm always especially excited to get bass tablature though.
