Dynamics And Diversity: Soil Fertility And Farming Livelihoods In Africa (Volume 1)

Synopsis

Soils are critical to agriculture and, in turn, to food supply and livelihoods. Sustainable management of soils is crucial for a large proportion of the population of Africa. Contrary to many claims, soil fertility is improved and managed successfully by small-scale farmers there. Careful studies from widely different areas reveal how closely bound up soil management is with complex social, cultural and ecological factors - requiring a far more subtly tuned approach to development policy and practice. This work is a study of how the context of livelihood systems has to inform development policy and practice.

Book Information

Paperback: 256 pages

Publisher: Routledge; 1 edition (August 3, 2001)

Language: English

ISBN-10: 1853838209

ISBN-13: 978-1853838200

Product Dimensions: 6.1 x 0.6 x 9.2 inches

Shipping Weight: 13.8 ounces (View shipping rates and policies)
