Customer Reviews

My son loves magic especially when he can do it himself. So I bought him this book. He is a fast learner and had a bunch of tricks to show everyone.

For adults, you might learn a handful of things. Kids might get more excited over this book, though their little hands might not be able to handle it. Not bad for its price and you can just pass it along to the next person.

This book show those tricks you always wanted to do but you never had someone to teach you! Stunts like guessing cards and false shuffles are explained in this book with illustrations. These 101 card tricks are also rated by mastery level in the index, to make you advance slowly in your skill level. An excelent book. I also recommend "World's Best Coin Tricks", also by Bob Longe.

hard to follow card tricks. I got this to learn some tricks with my 10 year old daughter and the as a 46 year old I was not able to follow it either.

This book does have some good tricks, but not really for serious magicians. You may go in for other titles like Royal Road to Card Magic, or Expert Card Technique, if you want to learn something worthy.

Basically, it shows you a lot of cheap tricks that you yourself could have figured out. However, if you are starting out and looking for a couple good tricks it might not be sooo bad. How about this for short, a magician probably wouldn't buy this book.

you know what i can sum up my whole opinion in two words "its stinks." its a piece of shit.the author should be beheaded for writing and publishing such gibberish. its not worth a dime.

This book is a total waste of paper and ink. Although, it's a waste of time to read "tricks" that even your 3 year old brother will discover the secret.
