Synopsis

Bestselling Norwegian mystery author Jo NesbÃ¸ enters the world of childrenâ ™s books with Doctor Proctorâ ™s Fart Powder, the first book in this very funny middle-grade series. Filled with magic, wit, and bathroom humor, Doctor Proctor will keep boys and girls laughing until the end.Eleven-year-old Nilly is new to the neighborhood, but he is quick to make friends: Doctor Proctor, an eccentric professor who invents wacky potions and powders; and brainy Lisa, who is always teased by the twin terrors Truls and Trym. All is good farty fun when Nilly and Lisa help Doctor Proctor develop his latest invention, a powder that makes you fart. The powder makes Nilly and Lisa VERY popular at school when they sell it for 50 cents a bag. (And they get revenge on Truls and Trym by giving them an extra-strength dose of fart powder that shoots them up into a tree!) But when Doctor Proctor creates an industrial-strength version that can send people to outer space, the kids must go to great lengths to protect the invention and keep it out of the hands of their neighbors, who want to use the powder for evil purposes. In the spirit of Roald Dahl and Lemony Snicket, Doctor Proctor offers a winning combination of humor, adventure, and absurdity that kids (of all ages) will loveâ ”proving that Jo NesbÃ¸ can keep you on the edge of the seat and make your sides split in equal measure.

I choose this rating because it is now my favorite book. This book has everything such as...*It is super funny.*It has action and adventure.*It has pretty cool illustrations.I loved everything about this book. I liked the writing style and also liked how they lived in this made up place called Oslo.I would recommend this book to everyone. If you like adventure it has it, if you like comedy it has it, it has some serious parts but it is mostly silly. This is my new favorite book of all time.

I’m a fan of Jo Nesbo’s Harry Hole crime books, so I was intrigued to see he had a series of children’s books. I figured with the word "fart" in the title, it would probably appeal to my 7 year old son. The book was a huge hit with him, and me, as well! Don’t let the title fool you, this is not low-brow toilet humor. Sure, there’s a lot if talk about darts, but this book is clever, funny, and well-written. Lots of giggles, some surprises, and a thoroughly enjoyable reading experience. "What do you have to say about that?"

Very funny and entertaining for all ages!

My son was a reluctant reader. Besides "Diary of a Wimpy Kid" he wasn’t impressed with books, until this series came along. He loves it, reads to us from it, retells parts from it. It is witty, imaginative and fun.

Great book for boys and girls, easy reading. Lots of laughs and AR points for your effort. Bought the series.

Not as good as the other fart powder books! That’s for sure!But i liked this one.I liked it when the Anna conda ate Nilly.She was confused because he was glowing! He accidentally had the glow powder.I would recommend this book to kids my age. But i would more preferably recommended the series or author. Joe NesbÃƒÂ¸

Apparently this book is so funny that it made my 9 yr old laugh out loud. He enjoyed reading this book so much that he wanted to tell me about the book. Every morning I would ask him, "Ok so

what happened next?" He would gladly tell me and then say that he couldn't wait to find out what happened next.Thank you Dr. Proctor!

My 8yo loves this book. It's funny and it's a chapter book! Not a comic book! Nothing in the story is inappropriate. It's all good clean fun. I'm also happy the main character is a girl. She's not a pretty princess. Usually the books my boy has are all about boys. Highly recommend.
