## Customer Reviews

Nice

Interesting fat tome on everyone's favorite topic, money, to have around for a browse now and then... Only wish it were in color. My used ex-library copy lacked its CD, so I can only speak of the book itself. Maybe later editions will be (or already are?) in color.

I collect world currency and I use this book to decipher those notes that I can't understand. It is a good reference book even though it's out of date. I don't care about the pricing, I want to be able to get basic information on a note and that it has. Well worth the price, which is very reasonable.

I was a little behind trying to figure where all the different currencies came from. I use this edition to cross reference all the paper money to exact the location. Along with a little history of each country and a bit about the monies I am able to share with the students as I present the world of money.

Wish had more photos but good reference

Excellent!

Very resourceful.

Excellent all the way around.
