Customer Reviews

First off, thanks to the other review that said that they thought the book was for actual real movies. That review was what sold me. But really, this is a quick and fun read. I do really like weird horror movie guides so this was right up my alley and the fact that the movies were over the top made it better. My favorite part of the book were the interviews. I'm going to keep it short and sweet, if you like off the wall 80s horror, you'll enjoy this. And if you're like me, you start to wonder what each movie would be like as a short story....

I bought this thinking it was real reviews, when I figured out it's comedy, I liked it even better. Neat little small press oddity and lol funny.

what a waste of time read, not one movie in this book I have ever heard of, no stills of any of these movies to be found anywhere, and the interviews with the "stars" of these movies was pointless

reading, I can believe someone published this mess of a book, don't waste your money.

More like a pamphlet. This looks like something you get for free in the mail. Shoddy publication

I have to admit that the extent of my experience with B movies in the 80s was pretty much from Up All Night on USA (thanks Rhonda Shear). I think I only saw one Troma flick during that time, the first Toxie. Neon Trash made me feel like I missed out on some great stuff. We love to sit around watching really bad movies and most of the ones in this book would fit right in. Even so many of the reviews were damn hilarious and I don't feel like I need to see them. This is a quick read, great for a lazy Sunday. The bonus bio story at the end was fun, too. The page count might be on the low side but the contents are great. Love the cover art, too.

"Mp Johnson Gives The Reader a Look Into The Parody Of Humorous Fictional Movie Reviews Done In His Book"Neon Trash Forgotten B-Movies Of The '80s."This Book Will Have You Wishing These Movies Were Real and Could Watch Them. Such Parody Movies Like,"Crematorium"Cult Sisters","Dinosaur Apocalypse","Flesh Eating Punks","Meatface Massacre",Just To Name a Few. Also Are Some Really Rad and Humorous Interviews Of The Fictional Characters. A Mustread and a Journey Into M.p Johnsons Imagination.

Great comedic look at a world of fictional movies with hysterical write ups of these movies from fictional critics in the same fictional world.

I loved this book!The book is mainly composed of short synopses of radical '80s B-movies that you're never going to find or see...EVER! The book then dives into some interviews where it starts to build a world upon itself. I found myself laughing out loud several times.Totally unique and original. I can only hope for a VOLUME 2 that can expand upon the awesomeness that is NEON TRASH.
