Headed to the Philippines to meet my wife's parents for the first time. Always want to make that first

impression a good one, even if I call one of them a chair.

love it!

Awesome!

I looked like a pro on my trip to the Phils! I would recommend this to anyone and everyone heading back.

I didn't like this book. I've stopped reading it. I think it has to do with the way the book is organized. It doesn't do a good job to explain sentence or phrase construction, and content towards the beginning of the book doesn't (in my opinion) start with the useful basics. I moved forward a few sections to find more useful words and phrases but this just leads to memorization. The best part of the book for me was the first chapter which explains some history of the Philippines and the language. I can't resell this like new book for enough \$ to make it worth my effort. But I will look for a different book to learn from.
