Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I do like this book even though I didn't know all the songs. I know it is unavoidable with the format, but wish songs could fit on 1 or 2 pages instead of some of them being 3-4 pages long having to flip back and forth throughout the song.

Bought this book as well as the 3 & 5 chord books. They have a nice variety of popular songs with full melodies and lyrics so that other musicians can sing or play along. Perhaps the only down side is some of the leads into the songs are done in tabs, but the rest is sheet music.

I expected to know more of the songs. But it's a good book for beginners

No melody lines. Spotty selection.

lack of any tab

Love it. Easy to understand and provided a number of the songs I remember and love.

I'm new to the ukelele and this book has been fun to learn from. My music instructor has been pleasantly surprised to see the variety of songs we can choose from for my weekly lesson challenges!

I actually liked the 3 chord song book better than this one. So if you are debating between the two, I would recommend the other one. However, it's still a good book and I recognized most of the songs. Still a good buy and I would get it again. I just prefer the other one.
