Adobe Photoshop Elements 15 (and 14) Introduction Quick Reference Guide (Cheat Sheet Of Instructions, Tips & Shortcuts – Laminated Card)

Synopsis

Laminated quick reference guide showing step-by-step instructions and shortcuts for how to use Adobe Photoshop Elements 15 (and 14). Content has not changed between version 14 and 15. If you have a version of this guide that only mentions 14 in the title, it is equivalent. Written with Beezix's trademark focus on clarity, accuracy, and the user's perspective, this guide will be a valuable resource to improve your proficiency in using Adobe Photoshop Elements. This guide is suitable as a training handout, or simply an easy to use reference guide, for any type of user. Covers BOTH Windows & Mac versions of Elements. Topics include: Editor and Organizer - What They are For, Launching, and Switching Between.Using eLiveSwitching Between Editing ModesWorking with FilesSwitching Between Open FilesReverting to the Original ImageComparing Original and Edited ImageRotating an ImageViewing Options for the Current Tool: Tool Options BarAdjusting ZoomUsing the Hand ToolResizing an ImageUsing the Guided Edit ModeAdjusting Brush Size and HardnessMaking Selections: Quick Selection Tool, Selection Brush ToolCut, Copy, Paste - What's SpecialUsing the Adjustment PanelFixing Red EyeUsing the Healing ToolsUsing MaskingStraightening the ImageCropping an ImageAdding Effects, Textures, or Frames in Quick ModeAdding TextOrganizer: Importing Images, Viewing Images, Using Albums.

Customer Reviews

Beezix has been publishing quick reference computer guides for trainers, training companies, corporations, and individuals across the US and Canada for the past 20 years. Founded by trainers,

extensive industry experience made us aware of the need for a line of high-quality guides that were clear, accurate and concise. Our cards are designed for casual computer users right through to trainers and help desk staff.

Good overview for the current PSE user. Not for the beginner. PSE is a "deep" program (the options have many options), you'll still need the tutorials to be productive. But this a good cheat sheet of what PSE can do. Recommended for the current PSE user who whats to increase the tools they use..,

Nice simple cheat sheet for Elements and Premier.You still need a book, but this can speed up the learning process.

Very useful for quick reference, but still need the book for more complicated functions.

Really helps to get around Photoshop Elements!

Very much more info than I had on my past version-6 and decidedly more complicated . Hope I master it before I go on to pine box.

More of a quick start guide than a reference card. I was looking for keyboard shortcuts and menus.

Its really a great graphic package but to a new-by this is very complicated

OK for a quick fix, will still need a more complete book to learn and operate system. Keep it handy for the simple things your forget.
