Mental Health Nursing Care (2nd Edition)

Synopsis

Completely updated in a new 2nd edition, this book remains a practical guide to applying the nursing process to the care of clients with psychiatric disorders and general clients with psychosocial issues teaches psychiatric-mental health nursing as it is really practiced. Nursing Care is presented in the five-step nursing process format and emphasizes the scope of practice for the LPN/LVN. Rationales after each nursing intervention explain why the action is important and support evidence-based nursing process. Readers are encouraged to develop empathy for clients and critical thinking skills to meet the challenges of client care. Case studies, client examples, and statements from clients in their own words help readers understand psychiatric and psychosocial nursing practice. Additional NCLEX-PN exam preparation is included in this new edition including test taking tips, NCLEX-PN style questions, and critical thinking care maps for complete success in your career as an LPN or LVN!

Linda Eby, RN, MN Linda Eby received her Bachelor of Science in Nursing and Master of Nursing degrees from the Oregon Health and Science University. Her work experience includes being a staff nurse and nurse manager in critical care, a home health/hospice nurse, case manager, Clinical Nurse Specialist in clinical genetics, and a psychiatric mental-health nurse. She has consulted and taught workshops on the topics of promoting student success and reducing culture bias in nursing education. Linda currently teaches Psychiatric – Mental Health Nursing theory and clinical courses at Portland Community College. She is also Coordinator of the Nursing Student Success Program. This program promotes the success of nursing students who speak English as a nonnative language, immigrant students, students of color, academically disadvantaged students, and nontraditional students of nursing. Her greatest career accomplishment is contributing to the success of these inspiring students. She is Secretary of AFT-Oregon, state affiliate of the American Federation of Teachers, and Vice President of the Portland Community College Faculty Federation. She has twin daughters, Kristine who was recently married to Jens Schrader and is continuing her studies at Portland State University, and Monica, an artist, art teacher, and art student at Marylhurst University (she really likes art). Linda is a nature and arts and crafts enthusiast and a good friend to her dogs Wendu and Charlie.

I thought this was a great buy. The prize was great and condition was excellent. I would recommend this to anyone looking for a book to buy on mental health.

My book came just about brand new, just like I was told, no highlights, all pages intact, I am a very pleased customer.

great

Great condition

So far the chapters I have read have been vague on the nursing care aspect. I feel like I am reviewing psychology. I want more information on how to care for the mentally ill as a nurse. I do like that it is an easy read and chapters are fairly short.

it was not what i wanted so i have no use for it since i live here it will be difficult for me to return

messy!too colorful (purple, pink, yellow, orange, ...) pages due to highlight pens. I don't like it. What color pen I can highlight in the book ?????

There are way too many nursing books out there where the author is more interested in bloating their own ego than actually making a readable text. Linda Eby takes psych and makes it understandable. I used this book in nursing school and I actually started using it for concepts my other text books made way too hard. You won't be sorry you bought this book. Buy it.
