Basic College Mathematics (12th Edition)

Synopsis

The Bittinger Worktext Series recognizes that math hasn't changed, but students and the way they learn math have. This latest edition continues the Bittinger tradition of objective-based, guided learning, while also integrating timely updates to the proven pedagogy. This edition has a greater emphasis on guided learning and helping students get the most out of all of the resources available, including new mobile learning resources, whether in a traditional lecture, hybrid, lab-based, or online course. Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. MyMathLab is not a self-paced technology and should only be purchased when required by an instructor. If you would like to purchase both the physical text and MyMathLab, search for: 0321951719 / 9780321951717 Basic College Mathematics Plus NEW MyMathLab with Pearson eText -- Instant Access Package consists of: 0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker 0321931904 / 9780321931900 Basic College Mathematics

Book Information

Paperback: 744 pages

Publisher: Pearson; 12 edition (January 3, 2014)

Language: English

ISBN-10: 0321931904

ISBN-13: 978-0321931900

Product Dimensions: 8.5 x 1.4 x 10.6 inches

Customer Reviews

Marvin Bittinger has been teaching math at the university level for more than thirty-eight years. Since 1968, he has been employed at Indiana University Purdue University Indianapolis, and is now professor emeritus of mathematics education. Professor Bittinger has authored over 190 publications on topics ranging from basic mathematics to algebra and trigonometry to applied

calculus. He received his BA in mathematics from Manchester College and his PhD in mathematics education from Purdue University. Special honors include Distinguished Visiting Professor at the United States Air Force Academy and his election to the Manchester College Board of Trustees from 1992 to 1999. Professor Bittinger has also had the privilege of speaking at many mathematics conventions, most recently giving a lecture entitled "Baseball and Mathematics." His hobbies include hiking in Utah, baseball, golf, and bowling. In addition, he also has an interest in philosophy and theology, in particular, apologetics. Professor Bittinger currently lives in Carmel, Indiana, with his wife Elaine. He has two grown and married sons, Lowell and Chris, and four granddaughters. Judy Beecher has an undergraduate degree in mathematics from Indiana University and a graduate degree in mathematics from Purdue University. She has taught at both the high school and college levels with many years of developmental math and precalculus teaching experience at Indiana University-Purdue University Indianapolis. In addition to her career in textbook publishing, she spends time traveling, enjoying her grandchildren, and promoting charity projects for a children's camp. Barbara Johnson has a BS in mathematics from Bob Jones University and a MS in math from Clemson University. She has taught high school and college math for 30 years, and enjoys the challenge of helping each student grow in appreciation for and understanding of mathematics. As a Purdue Master Gardener, she also enjoys helping others learn gardening skills. Believing that the best teacher is always learning, she recently earned a black belt in karate.

Textbook is ok but didn't have the access card included in it. Since my daughter needed it for her class I had to purchase a separate access card for it costing an additional \$65 to an already costly rental (\$70 I believe). It would have been easier to have her buy the book new in the school bookstore and avoided the stress of buying the separate access card.

The book itself was in beautiful condition and exactly what I needed. My only problem was that nobody informed me there was a lab included in the book and, with a used book, it can't be used again so we had to pay for the lab separately anyway. We still ended up saving money though so, all in all, it was awesome.

I thought when I rented this the access code was to be with it but it was not so I had to spend an extra \$100 for the access code and the book was optional. The only reason I rented it was because I thought the code was with it.

Great book lots of help. And loved the fact that I did not have to purchase it rentals are the best when you are doing refresher courses over the summer.

It's an ok book

Great book. Great for a refresher. Definitely worth to buy. Loved how each step is explained in the book. -angel

Was perfect for my math class. Luckily the notes made where not on the problems I ended up doing. :)

The book was worn damaged and written in
