# Dragons Of Westeros: A Critical Look At The Beasts Of Game Of Thrones (Game Of Thrones Mysteries And Lore Book 4)

## Synopsis

On SALE NOW: 0.99 instead of 2.99 Full of daring theories and fascinating tales from the world of Ice and Fire, *Dragons of Westeros: A Critical Look at the Beasts of Game of Thrones* provides a riveting account of the origins and mysteries of dragons in *A Song of Ice and Fire*. Drawing on the wealth of fantasy literature to differentiate George R.R. Martin's beasts from those of other authors, this book explores how the dragons came to be, what caused their disappearance in the first place and what non so obvious repercussions will their revival bring to Westeros. A perfect gift for fans of the TV show as well as the book series, *Dragons of Westeros: A Critical Look at the Beasts of Game of Thrones* serves as both an introduction and an accompaniment to the existing media. If you want to find out how the World of Ice and Fire came to be or what might happen next, this is the place to be! Read for FREE with Kindle Unlimited!

## Customer Reviews

This book caught my attention and interest. This book explores how the dragons came to be, what caused their disappearance in the first place and what non so obvious repercussions will their revival bring to Westeros. Overall the book is well written and easy to read. Very entertaining and

interesting. I can say that i really had a good time reading it. Looking forward for the next series.

This short little booklet was written like a junior high book report. It merely summarizes information taken from other sources. There are many spelling and grammatical errors throughout. It probably should not have been sold online as it is profiting from Martin's work without offering anything original.

Everybody loves to love the dragons. Probably three of the favorite scenes in Game of Thrones include the dragons. This book is truly full of theories and fascinating tales. This is interesting and entertaining book!

I really love game of thrones from TV up to this book. a great one to have.

... it was free via Kindle Unlimited. This "book" is not at all true to its subtitle "A Critical Look at the Beasts of Game of Thrones". It is simply a hodge-podge of material lifted from various sources such as: the first five books of ASOIAF and more recently published work, "The World of Ice and Fire". Additionally, the author throws in descriptions of some scenes (those which included the dragons ) from the TV series (ending at the conclusion of Season 6). I'm surprised that this even exists. When one considers how closely this "Critical Look" resembles plagiarism. The author plays the game many students sadly become adept at & continue right into their adult lives: representing that which is supposed to be their original work, while in reality it's simply a regurgitation of another's words and ideas. If the above is not bad enough: it is rife with both grammatical and spelling errors. It's incredible what gets published these days. Overall, a sad commentary on our times...
