RON C. JUDD, a longtime columnist for The Seattle Times, is the author of several books. He lives in Bellingham, WA.

This is one of the best descriptive day hiking books I've ever read! I'm planning a trip to Mt. Rainier later this summer. I've read the whole book and categorized the "must do" hikes, the really "like to do hikes" but might be too strenuous for a senior flat-lander hikes, the ones that would be too crowded to suit me, etc. The directions to the start of the hikes are great. The author even has quite a sense of humor...refer to the consequences of not purifying any stream water before drinking. All in all, it is a very practical and usable hiking guide, and I highly recommend it!

We used that guide for our 2 days of hiking in Rainier NP. I think it contains very good trail

descriptions and other useful information. For a trip like ours you can 'survive' with area trail maps distributed in Visitors centers. However the book has allowed us to pick what I believe the best hikes and while on trail I has a bit more confidence and comfort having this book with me.

This is a good guidebook for the Mt Rainier trails.

We did three of the 5-star hikes and all were superb, with useful descriptions, ratings of difficulties and times. It was easy to sort by area and choose one from each area.

Great book with good information

This book gave me all the information I needed to plan some day hikes around Mt. Rainier.

Great information. The author seems very knowledgeable and material is well organized. Looking forward to our trip and using the book.

I'm using this to plan an upcoming trip in August and am finding this very useful along with a topo map in planning my days. This book is very thorough and well written.
