Extreme Sports (Extreme Sports No Limits!)

Synopsis

Whether flying off a giant ramp, diving from an aeroplane, or tackling waves taller than a five-story building, extreme sports push their athletes to the absolute limits. This book provides information on extreme sports, from skateboarding to skysurfing, offering profiles of over 20 different sports and their history. It is suitable for ages 6-12.

Book Information

Age Range: 8 - 11 years

Grade Level: 3 - 6

Customer Reviews

Reviewed with John Crossingham and Bobbie Kalman's *Extreme Climbing*. Gr. 4-8. With lots of thrilling action photos and lively texts, books in the new *Extreme Sports: No Limits!* series celebrate today's daring, sometime dangerous sports. *Extreme Sports* gives an overview of the exciting activities on land, in water, on mountainsides, and in midair--from kayaking and cliff diving to motocross and skateboarding. *Extreme Climbing* focuses on various climbing styles, including traditional rock climbing, bouldering (climbing without ropes or harnesses), and ice climbing, working in details about technique, equipment, locations, rating systems, and competitions, as well as brief profiles of individual champions. With such exciting facts, there's no need for the constant exclamatory punctuation, and the occasional computer-enhanced images distract from the realistic, breathtaking photos of athletes in action. The glossary is useful, but words in bold type are intrusive. Both books include strong safety warnings about the dangers of the sports and lots of excellent safety information, even as they encourage readers to get started. Fans, as well as budding

athletes, will enjoy these. Hazel RochmanCopyright © American Library Association. All rights reserved --This text refers to the Library Binding edition.
