Epicurus propounded seriously seminal ideas worthy of anyone who would aspire to an understanding of the wisdom of the ancient Greeks. Though greatly derided by established religion in its day, these ideas have transcended ancient culture and greatly influenced succeeding cultures up to our own time. Well worth the indulgence of purchasing this book.

This is a good primary source of anyone interested in Epicureanism.

Great!

Good price for this book.

the selections in this book are interesting, but the organization and commentary leaves a lot to be desired. I would look for a better edition.

Wasn't supposed to come until Tuesday but came in today on Saturday. Guess they were pretty eager to send this thing out haha. I have 0 care for this book. But it's required reading for a class so I had to buy it I guess. So as for product review, looks good. What you'd expect a small paperback book to look at. A little pricy for what it is but I prefer this over the college bookstore's price any day.
