Laboratory Manual For Chemistry: A Molecular Approach (4th Edition)

Synopsis

For courses in Chemistry Laboratory. With a focus on real-world applications and a conversational tone, this laboratory manual contains experiments written specifically to correspond with Chemistry: A Molecular Approach, Fourth Edition by Nivaldo J. Tro. Each experiment covers one or more topics discussed within a chapter of the textbook, with the dual goal of 1) helping students understand the underlying concepts covered in the lecture, and 2) presenting this material in a way that is interesting and exciting. The pages were in great condition. I did not tear any pages out, but I copied them and filled them in for labwork. The labs were interesting and taught me many new techniques.
