Great reference

Good intro with lots of pictures and explanations.

Good points the Author presents the benefits of Collecting China Stamps which have the potential to make a decent profit. According to the author nearly 1/3 of modern stamp collectors are from China. I am guessing China encompasses P.R. China, Tapei (Taiwan) and the former colonies of Hong Kong , Macau, etc. The photos are great especially on P.R. China stamp from 1949 to 1980 , and distinguishing less valuable reprints and from originals. The photos are not as extensive as stamp catalog. The Author gives helpful advice about where to buy stamps and stamp collecting investment advice. While the author emphasizes the appeal and historical of stamps , the author doesn't mention the fun or thrills of collecting.. Also the author hints but does not emphasize the possibility of loss of value. For example in the early 1980's there where investors who purchased Classic (pre- 1940) U.S. stamps as an investment for high prices. Unfortunately after the recessesions of the last 30 years, prices are below their pre 1987 value. So invest in China stamps if you want to face the risk of being stuck with "historical bits of paper" that have little demand.
