Survival Prepping For Beginner's : Box Set : A Complete And Comprehensive Beginner's Guides And Manuals To Prepping

Synopsis

DISCOVER:: A Complete And Comprehensive Beginner's Guides And Manuals To Prepping * * *

LIMITED TIME OFFER! * * * BOOK #1 PREVIEW For many, the idea of living in a shipping container might be something weird and shocking, but there are ways to do it. There are also ways to help you organize your home so that it doesn't feel like it's a tiny space. Many don't realize that it can work, but sometimes they need a bit of a reason to do so. Shipping container homes are small, affordable, and they leave less of a carbon footprint on society. For those who are looking for a greener home, this is for you. BOOK #2 PREVIEW Knowledge and correct information are the first steps to survival. There are generic preparations that are appropriate for every emergency situation. However, concrete and careful planning is needed for you and your family to survive during emergency situations. For instance, you prepared a basic prep kit that includes a first aid kit, matches, bottled water, and no-cook food items. This kit can be easily packed in your car for emergency cases while on the road. This is a life saver. However, this kit will do only a little help if you are facing complex situations such as freezing water. You do not have enough proper supplies to meet the exacting needs of the situation because you as the prepper did not anticipate the additional gear you will need. BOOK #3 PREVIEW Start de-cluttering your home. You need to designate a specific room or space to keep all your emergency preparedness supplies. An unused closet or room is a perfect spot to store your inventory. Ensure that this area is easily accessible and clean. In case your place has a limited space, you need to de-clutter before you start your preparedness program. You need to check every spot of your place. Conduct an inventory of the items you currently have. How much food items do you have in your fridge and in the pantry? How much water do you store in your house right now? What do you store in your closets? Are your drawers and cabinets organized and well kept? Can you find easily the items you need? BOOK #4 PREVIEW A pandemic is a lethal disease or virus that affects many people worldwide. Based on past experiences, pandemics prove to be deadly—killing multitudes in a matter of hours to several weeks. Considering the fact that virus strains are able to mutate, in the same way that humans and different organisms have evolved over the years, who's to say that a pandemic will strictly not occur? BOOK #5 PREVIEW This book aims to provide you with more specific information on how you can prepare for serious disasters using resources that may already be sitting in your cupboards, your, attic or your collection of junk. You will find that the humble mason jars that you might be taking for granted have a lot of practical uses when it comes to disaster preparedness. Learning about these uses will help you take advantage of this common household item for your prepping needs. BOOK #6 PREVIEW This book is created with the prepper

in mind. It does not matter if you are just a newbie trying the prepper lifestyle or the survival specialist who is looking for some extra tricks to improve his odds of survival. "Mason Jars for Extreme Preppers" is a book that is designed to teach would-be survivalists on how to make use of Mason jars as tools for surviving. Get The Book Before The Promotion Runs Out! Only For A Limited Time! You Do NOT Need A Kindle Device To Read This E-Book, You Can Read On Your PC, Mac, Smart Phone, And Or Your Kindle Device
