For Jennifer Bricker being an infant who was born without legs and whose upset and dubious Romanian-immigrant parents feared they could not care for her and give her for adoption while they kept their other siblings would be the precursor to a challenging and sad life. However, Bricker considers these as unexpected blessings, according to her book.Before the discovery of being the biological sister of 1996 Olympics Gold Medalist gymnast Dominique Moceanu, Bricker had a

blessed life without her disability get in the way. Fortunate to find a loving adoptive family before she turned 1-year-old, they instill in Bricker to never say "can't." Rather than being confined to a wheelchair, she was very athletic: roller-skating, volleyball, power tumbling and spinning from silk ribbons, in flight. Jennifer Bricker's story will give any self-loathing individual who was born with legs an inspiration and the belief that you can do anything.

Jen is just learning how inspiring her story is to others and it truly is! I love that she writes from the perspective of a "regular" person, but she also knows what it's like to have to make major modifications to perform activities most of us treat very casually. Jen is both a young woman, and an old soul. She genuinely seems to believe in the power we all have to accomplish things that seem impossible, and we all need to recognize that our weaknesses can serve us and others in ways we never imagined. Our part is to be open and allow that to happen. Keep writing, Jen!!

I'm really enjoying this book and it's positive energy. The power of the can-do attitude, particularly for those of us who are no longer in our 20's but still have so many things we want to do in life and explore... I know one reviewer spoke of this reading like pep rally, but perhaps that's what we all need once in a while. And yet there is certainly also a tough love message that is all for taking away our excuses for not doing what we truly want to do in life. Jen is truly a remarkable individual whose indefatigable spirit can inspire us all. - Erik Hendin

The individual is inspiring, but the writing is not. I didn't read beyond a few chapters.

It's how you raise them that makes all the difference. This girl had amazing adoptive parents who never discouraged her from her dreams.

Jen is amazing! Reading this book will get you off your butt and do something!!! Thank you Jen!!!!

She has proven that, Anything is possible, if you are willing to work at it, have have the faith to believe that all things are possible through Christ!!!

Here is a fascinating journey that teaches about persistence, belief, and joy. The style of writing did not appeal to me, but that is just personal preference.
